Photo editor app for iphone collage

I'm a long time user of PicCollage and I love it! I have an account and have made some lovely friends, which have been incredible. I have a few problems though. There are ads that pop up when you post something, one of which is for a kind of birth control. This isn't the right ad to show (this is the only one I've seen for months). The majority of the PC population is in middle or high school, and that ad is aimed at people older than high school age. As someone in high school, I'm not interested in this ad, and it wastes my time and makes me uncomfortable. I relate to many other users with these feelings. In addition, the most recent update (compatible with the iPhone X) made the app itself virtually useless to me. I don't know if I'm alone in this, but I can't see my notifications (likes, comments, remixes) or my profile and I can't post. When I try to see my notifications, I'm redirected to the site, and I can't post or see my notifications there. This is a big problem for me because I am very active in the PC community. I don't know if others are affected (I assume they are) but I hope this is fixed as soon as possible. Do you want to create collages of your beautiful memories? Great photo app for iPhone users. Source: Christine Romero-Chan/More We all take a lot of photos, whether it's with our iPhone or the best digital camera. But sometimes you'll want to put a group of photos together into a collage, which would be a great addition to a printed photo book or other online printing services. That's why you'll want one of the best photo collage apps for iPhone for work and here are some of our personal favorites. Fair warning: most collage apps do the very same things. So this list includes apps that follow their own unique ways. Source: iMore Moldiv is more than just a collage app, it is also a photo editing app. You can combine groups of up to 16 photos with over 300 filter styles or 135 magazine layouts and use different editing tools for each photo. It comes with stickers, editable text overlays, and templates for wallpapers. You can adjust the frame style by making it thicker, rounder, shadowed, and more. Moldiv is great for creating detailed collage. It's practically like having an actual souvenir book on your iPhone, making it one of the best photo collage apps for iPhone for online printing services or picture books. Moldiv gives you a lot of options for collages. Combine up to 16 photos into a single collage with different magazine filters and layouts. Source: iMore Layout for Instagram. That's probably because Instagram makes it. You select the photo you want to combine first, instead of selecting the composition, and then try to fill it. You can select up to nine photos and then select the composition and add the frame. You can resize photos in frames, but you can't rotate them. You also can't edit them. However, it's perfectly formatted for Instagram, so you hardly have to do any work to get it done and publish your collage right away. If your goal is to quickly create collages on the go to post to Instagram, you need Composition. Layout is the perfect companion for Instagram. It allows you to combine multiple photos into a single collage ready for Instagram. Source: iMore Diptic has some unique and interesting layout templates that you can use to create collages with up to nine photos. In addition to classic layouts, you can use iconic shapes, like hearts, basketballs, and even the Seattle Space Needle, can create miniature slideshow style collages with an animated layout, and Diptic lets you combine photos and videos on a collage. If you want to think outside the layout box, see what Diptic has to offer. I've had Diptic for years, and it's it one of the best photo collage apps for iPhone. If you want to think outside the box with your collage, then Diptic gives you some fresh new options. Source: Apple LiveCollage offers dozens of interesting and unique layout templates. You can combine up to 16 photos with one of the classic layouts or create special posters, pinboards and 3D collages with just a few options. You can adjust the frame width, bend the corners, and change the background color for any template. You can also add stickers from different topics, like holidays and sports, and add text to any location. Stitch frames allow you to create long collage style booth photos. For collages where composition is just as important as images, check out LiveCollage posters and pinboards. Collage Maker gives you a lot of different layouts and templates, including 3D collages. Source: iMore Want a collage, but doesn't feel like taking the time to put everything together meticulously? Don't worry; FrameMagic has your back.
